

Musical Hydrotherapy Training Programme

Liquid Listening provides training to practitioners, teachers, staff, carers and parents to enable organisations to facilitate Musical Hydrotherapy themselves and integrate it successfully into their curriculum or rehabilitation programmes.

The training ensures that the therapy delivered is of a quality and standard that encourages the ongoing development and welfare of therapy participants. It also provides a unique professional and personal development opportunity which fosters relationships between facilitators and beneficiaries

The benefits of Music Hydrotherapy include:

- Increased motor and sensory skills
- Improved communication
- Increased appreciation to sound and music
- Increased attention in the classroom
- A deeper state of relaxation

WHAT'S INCLUDED?

- ★ **Full CPD training for up to 10 staff members in the pool**, with an option to increase by groups of 10 for little extra cost
- ★ **Music in the Pool workshops with music teacher or, in their absence, with class teachers** could be involved in accreditation (Asdan/formal targets) or go towards targets on a Childs EHCP.
- ★ **Installation and operation tutorial of underwater sound system at the pool.**
- ★ **A playlist of 2.5hrs of music created for underwater listening.**
- ★ **Free annual membership to Liquid Listening service hub** including free refresher training sessions, maintenance of equipment, consultation with our practitioners, refreshed playlist, invitations to opportunities.

Training Programme Overview

- Delivered over six 4-hour sessions by a trained aquatic body therapy practitioner and sound/audio specialist.
- Up to 21 participants per group - 10 trainees at the pool, 10 recipients and music teacher (this number depends on pool size).
- Covers techniques in supporting people in water taken from Watsu and Craniosacral therapy and consultation on floatation aids that best serve the purpose.

- Includes installation of a specialist underwater sound system and training to operate and troubleshoot the equipment.
- Reviewing of participant progress.
- Consultation sessions with the music therapy teachers on ways to create and integrate classroom work with pool work and expand the role of music work in the school.
- Provides opportunities to connect and share best practice with other Liquid Listening partner organisations and the wider Musical Hydrotherapy community
- Can be flexibly delivered to suit curriculum/organizational needs and opportunities

Programme Outcomes

- Between 8 - 10 trained staff members per group, with CPD certificates for Musical Hydrotherapy practice
- At least ten students benefitting from Musical Hydrotherapy during the training
- A suggested protocol for the school and guidance to music staff and teaching staff on how to deliver musical hydrotherapy sessions based on needs
- Highest quality underwater speaker system imported at wholesale price, installed and operational
- Provision of hours of music to play underwater, continuous support and sharing of practice

Free Membership scheme

You will be eligible for free Liquid Listening lifetime membership to be reviewed annually.

Membership benefits are:

- Access to support from LV aquatic bodywork specialist and links to purchase the flotation aides they use.
